

ISAAC BENJAMIN FLORES CARBAJAL

Software Engineer | +51 940 204 784 | isaacflores590@gmail.com | Portfolio @ isaacfc.com

Solid front-end knowledge of **HTML5, CSS3+, Typescript, React, Angular, Webpack, Tailwind** and **Jest**.

Strong understanding of design principles, UI/UX, Advanced CSS (**CSS Modules, Sass**).

Strong back-end knowledge of **Node, Express, PostgreSQL** and **MongoDB**.

Aware of the constant updates that new technologies can acquire during the development of a project, which allows me to understand what decisions we must make as a team to provide the best optimization during coding.

Positive attitude, strong work ethic, looking for results while focusing on high quality code and performance.

Personal Projects

1. E-commerce Website

- Developed a responsive e-commerce website using React, HTML, CSS, and Tailwind.
- Implemented user authentication and authorization functionalities using Firebase.
- Integrated Stripe payment gateway for secure online transactions.

2. Blogging Platform

- Created a full-stack blogging platform using the MERN stack (MongoDB, Express.js, React, Node.js).
- Implemented CRUD operations for blog posts and user comments.
- Designed and optimized the frontend UI/UX using React and CSS.
- Utilized JSON Web Tokens (JWT) for secure user authentication.

3. Weather App

- Developed a weather application using React and Node.js.
- Utilized the OpenWeatherMap API to fetch real-time weather data.
- Implemented dynamic UI updates based on the user's location and weather conditions.

4. To-do List App

- Created a responsive todo list application using React and localStorage.
- Implemented features like adding, deleting, and marking tasks as complete.
- Utilized CSS for styling and ensuring an intuitive user experience.
